

VISHVARA GANDHARV

Product Designer · UX Researcher · Interaction Design · Design Systems

vishvara.ux@gmail.com · 9310727557 · [LinkedIn](#) · [Portfolio](#)

PROFILE

Product Designer and UX Researcher working end-to-end — from problem definition and field research through wireframes, high-fidelity prototypes, and dev handoff. I design for real constraints: low-bandwidth devices, multilingual users, first-time digital adopters. Most recently, Margdarshak reduced 740 government schemes to 3–5 personalised matches, achieving 90% task completion across 2 rounds of usability testing.

PROJECTS

Margdarshak — Government Scheme Access Platform

Jan – Apr 2026

Product Designer & UX Researcher · DFC Hackathon (9-member team)

- Researched 15 low-income families across Delhi, Coimbatore, and Pune — identified fear of irreversible error (not literacy) as the core barrier; insight reoriented the entire design direction.
- Redesigned end-to-end flow: 740 schemes → 3–5 personalised matches; with contextual UX writing and progressive disclosure.
- Multilingual interface (Hindi, English, regional languages) for low-bandwidth Android devices; built reusable Figma component system for design system scalability.
- **90% task completion** across 2 rounds of usability testing with low-literacy users.

Postpartum Care App

2026 · Active

Lead Product Designer & Researcher · DFC Hackathon

- Research revealed care is defined differently by each partner — designed a communication-first app with shared micro-tasks. Mid-research, discovered proximity assumptions were wrong; re-ran interviews, redesigned core interaction model.

EXPERIENCE

Brand & Visual Designer · Willow Wrap

2024 · 2 months · Internship

- Created Instagram content for client brands at a social media marketing agency — posts drove a **60% increase in post reach**; maintained consistent visual identity across multiple brand accounts.

EDUCATION

MCA — Master of Computer Applications · 84.9%

JIMS Rohini

BCA — Bachelor of Computer Applications · 94%

IIM Janakpuri · 2024

SKILLS

Design: End-to-End Product Design · Wireframing · Hi-Fi Prototyping · User Flows · Interaction Design · Mobile-First · Responsive Design · Visual Design

Tools: Figma (components, auto-layout, prototyping, dev handoff) · FigJam · Design Systems · Miro · Photoshop

Research: User Interviews · Usability Testing · Qualitative & Quantitative · Affinity Mapping · Journey Mapping · Heuristic Evaluation · WCAG · BEEC Framework

Strategy: Information Architecture · Competitive Analysis · A/B Testing · Product Thinking · Currently building: motion & micro-interaction patterns

English · Hindi · Japanese · Open to full-time & internships · Delhi (open to relocation)
