PROFILE

UX Researcher and Product Designer with hands-on experience across research, strategy, and design. I uncover user truths that challenge assumptions — from simplifying government scheme access for low-income families to rethinking postpartum care. Passionate about inclusive, mobile-first design for problems that genuinely matter.

PROJECTS — ALL UNDER DFC HACKATHON (9-MEMBER NATIONAL TEAM)

Margdarshak — Govt. Scheme Helper

JAN - APR 2026

UX Researcher & Strategist

Researched 15 low-income families; identified language complexity as the core barrier. Reduced 740 schemes → 3–5 personalized matches and 15-step flows → 3-step guided journeys. 90% task completion in usability testing.

Designed multilingual end-to-end flow (Hindi, English, regional languages) optimized for low-bandwidth, low-end Android devices.

Postpartum Care App

2026 · IN PROGRESS

Lead UX Researcher & Strategist

Research insight: definitions of care differ significantly between men and women. Solution: a communication-first app assigning small shared tasks — not another checklist.

Relationship Literacy App for Teens

2026 · IN PROGRESS

UX Strategist & Analyst

Identified gap: adult content exposure creates skewed perceptions of love. Designing an ignorance-bridging solution focused on healthy relational understanding.

EXPERIENCE

Brand & Visual Designer

2024 · 2 months

Willow Wrap (Internship)

Designed Instagram content driving a 60% increase in post reach; built a scalable visual design system across all marketing touchpoints.

Created lo-fi and hi-fi wireframes for a multi-functional product, defining UX flows for unique opening mechanisms and integrated features.

Product & Character Designer

2023

Freelance

Conducted stakeholder interviews, delivered character design + UX wireframes aligned to brand personality and consistent design language.
